SAN FRANCISCO EARTHQUAKE KILLS THOUSANDS ON WEDNESDAY

FIFTY BLOCKS DESTROYED COMMUNICATION IS CUT OFF

Fire Breaks Out in the Ruins and the Destruction of
The Water Mains Renders Fire Department
Helpless to Cope With the Flames.

LATE ADVICES SAY THAT THE ENTIRE GOLDEN GATE CITY MAY BE DESTROYED

Continuous Quakes During the Day--The Entire Popu-
lation is in a Panic--Firemen Dynamite Buildings
In Order to Stay the Conflagration--Work
of Rescue is Retarded--Fire Chief
Sullivan Killed.

San Francisco, April 18.—(Bulletin)—The entire city
is doomed unless the wind changes. Flames are raging
throughout the city and it seems probable that the des-
truction will be complete.

One press association has just sent out a bulletin,
saying, the latest estimates place the dead at 3000. An-
other press association is not trying to estimate the num-
ber of dead, but says the number may run far into the hun-
dreds, or perhaps, several thousands.

ELEVEN HUNDRED REPORTED LOST.

New York, April 18.—Hutton and Company have a
dispatch received at 11:43 a. m., saying: "The best and
most accurate information regarding the San Francisco
earthquake indicates the whole city is being destroyed by
fire. From the highest elevation in San Jose, about 25
miles from San Francisco, the city can be seen ablaze.
Estimated 1,100 lives lost at 11:43 a. m.

FRISCO A BALL OF FIRE.

San Francisco, April 18.—(Bulletin)—A shock fol-
lowed the one of early this morning, about three hours
later. It toppled over many buildings that still stood. Fire
Chief Sullivan and Policeman Frenter were killed beneath
the ruins. Thieves are already ransacking the ruins and
soldiers are being rushed from the Presidio. Berkeley, the
swell suburb across the Bay, the home of a score of million-
aires, is reported destroyed. San Francisco is a ball of
fire. The Examiner and Call buildings will probably be
afire within a few minutes.

GREAT OCEAN WAVE PREDICTED.

Toledo, April 18.—Father Hilling, the well-known as-
tronomer and scientist of St. John's college, says the Cal-
ifornia earthquake, the Formosa earthquake and the erup-
tion of Vesuvius are all probably attributable to spots now
to be seen on the face of the sun. He also predicts a great
ocean wave will soon come in from the Pacific and do in-
calculable damage to the coast.

SEVEN HUNDRED BODIES ARE RECOVERED.

Ft. Worth, April 18.—(Bulletin)—Information reach-
ed here that so far 700 bodies have been recovered from
the ruins of collapsed buildings in San Francisco and the
property loss will reach \$30,000,000.

CAN'T OPERATE WATERWORKS.

New Orleans, La., April 18.—(Bulletin)—A Southern Pacific railway
wire message says, at 10 o'clock a number of fires have started in San Fran-
cisco, and as the waterworks cannot be operated there was danger of the
entire city being burned, as the wind is blowing severely. Dead and in-
jured were being removed as rapidly as possible, but the panic is so great
that but little headway is being made. It is impossible to tell the extent
of the loss of life, but it is believed to be very great. The most danger
now seems to be from fire.

GOLDEN GATE CITY.
San Francisco is the metrop-
olis of California and is known
as the "Golden Gate City." The
census of 1900 gives it a popu-
lation of 312,782. With its en-
virons, consisting of Alameda,
Marin and San Mateo, this pop-
ulation is increased to 500,775.
The city proper is co-extensive
with San Francisco county.
The city proper occupies an
area of 47 square miles.
It exports silver, gold, quick-
silver, wheat, flour and wool,
and contains one of the finest
harbors in the world. A Span-
ish mission station was estab-
lished there in 1776, which mis-
sion was secularized in 1821.
A United States man-of-war
took possession of it in 1846,
and it became important in
1849, as a result of the Califor-
nia gold discoveries.
The city was devastated in
1819 and 1851 by fire. The
name was originally Yerba
Buena (Spanish for "Good
Herb") and was changed to
San Francisco in 1847.

en blocks from the total building.
San Francisco, April 18.—The earth-
quake wrecked the water works. Fire
spread in all directions, as the
fire department was unable to handle
it. There is no direct communication
as both telegraph companies have
been driven out of their buildings.
The earthquake was a disastrous
one. Many people are reported killed
and houses were wrecked and fired.
There is no water.
The costly city hall is in ruins.
Many are reported buried in the
wrecked buildings. The San Fran-
cisco Hotel, also the Palace Hotel,
withstood the severe shock.

SEEKING INFORMATION.
Washington, April 18.—The gov-
ernment is endeavoring to get infor-
mation from San Francisco regarding
the earthquake by wireless tele-
graphy. Admiral Cowles, chief of the
bureau of equipment, when shown
the Scripps-McRae Press Association
dispatches this morning, the first infor-
mation, at once sent an order to
the station at Port Harford, Cal.,
to make every effort to get into com-
munication with the station at Goat
Island and Mare Island, in San Fran-
cisco harbor, and to learn the details
of the catastrophe.

FELT IN CLEVELAND.
Cleveland, April 18.—(Bulletin)—
At 8:31 this morning the instruments
of Rev. Father Odenbach at St. Ig-
nace college, recorded a slight
earthquake shock.

BUILDINGS TOPPLED AND FELL.
Ashford, Ariz., April 18.—(Bulletin)—Reports of the earthquake
shock at San Francisco received here say that the first rumble was heard
at 5:10 o'clock. Buildings toppled and fell in every direction. The police
patrol is carting the dead from the buildings.

Fire broke out in the wholesale houses near the water front and other
localities with no water to fight it.
The city is menaced by as terrible a foe as the convulsions of a few
minutes were alarming.

At the Postal telegraph office, the building is partially wrecked and
most of the Postal and Cable employees fled for their lives.
At 7:30 communication on a single wire with Ashford and Los
Angeles was restored.

The shock was felt as far south as Santa Barbara, but not felt in Los
Angeles. The Postal telegraph electrician is now endeavoring partially to
restore communication. All power lines in the city are wrecked. The Pa-
cific Cable was not damaged, but the loss of power seriously crippled com-
munication and it is unsafe as yet to remain in the offices.

There has been a light shock every few minutes since the heavy one.
A terrific panic exists in the city. Every one rushed to the streets.
Many hundreds are reported killed south of Market street, where several
disastrous fires are raging. No damage of serious nature or loss of life
in the residence districts are reported.

THOUSANDS MAY BE DEAD.

Portland, Ore., April 18.—The Pacific States Telephone and Telegraph
company reports its main exchange, 216 Bush street, San Francisco, in
flames. It adjoins the Mills building. An explosion blew the top off the
telephone building. It is doomed as there is no water supply due to the
cracked main. The Mills building is in danger. Many fires are reported
in different sections of the city. Fire is nearing the Palace Hotel. Thou-
sands are probably dead. Three hundred have already been taken out
and the Mechanics' pavilion has been transformed into a morgue and more dead
are arriving every minute.

WHOLE CITY MAY BE DESTROYED.

New York, April 18.—The Rock Island railroad received the following
from its Chicago office, timed 11:45 a. m.:
"San Francisco is being wiped out by continuous quakes and flames.
The fire is working toward the docks unimpeded. The water works are out
of commission. The estimated dead, 1100."

Another dispatch says: "The best and most accurate information from
San Francisco indicates that the whole city is being destroyed by fire. From
the highest elevation in San Jose, 25 miles from San Francisco, the city
can be seen ablaze."

THREE MILES

Of Railway Track Sunk Out
of Sight by the
Awful Quake

ALL WIRES TAKEN WITH IT

FIRE IS RAGING IN BERKELEY A SUB-
URB OF OAKLAND

Cars Shaken off Tracks at Pleasanton
--At Fracy all Chimneys are
Knocked Down.

Los Angeles, April 18.—The West-
ern Union Telegraph company is in
receipt of the following message
from Sacramento: "We felt a heavy
earthquake at 5:15 a. m. All the
clocks stopped at that hour. There
are three miles of railroad bed sunk
out of sight between Suisun and Pen-
cencia, and all the telegraph wires were
taken with it."

"At Pleasanton several railroad
cars were turned over on the main
line, blocking the tracks. At Fracy
all of the chimneys were torn down."

Another Western Union dispatch
from Sacramento reads:
"Sacramento had thine. He says
a big fire is raging in Berkeley, a
suburb of Oakland. He thinks the
town is on fire. The railroad is go-
ing to send out the 8:20 train via
Vallejo, but they do not know how
far they will get. Am afraid it is
serious in San Francisco."

NEWS RECEIVED AT CHICAGO.
Chicago, April 18.—The following
message was received by the local of-
fices of the Postal Telegraph com-
pany:

San Francisco, via Ashford, Ariz.,
April 18.—An earthquake hit us at
6:12 this morning, wrecking several
buildings and wrecking our office.

They are carting the dead from the
fallen buildings and fires all over the
town. No water and we lost our
power.

I am going to get out of office, as
we have a little shake every few min-
utes.

utes, and it's me for the simple life.
(Signed) "H."

San Francisco, 5:50 a. m.
There were three shocks. The first
and second were light and the third
very severe.

Fires are raging everywhere in the
city. In the badly damaged and wreck-
ed buildings. There are no men to
fight the flames.

Survivors who are not heroically
caring for the injured and dead are
fleeing for life. The city is in a state
of indescribable panic and confusion.

PALACE HOTEL BURNING.
Denver, Colo., April 18.—Informa-
tion has been received here that the
fire is reaching toward the big Pa-
lace Hotel at Frisco.

DISTURBANCES AT 10:30.
Washington, April 18.—At 10:30
this morning the seismograph record-
ed at the weather bureau was still of
effort, although feeble. No dis-
patches had been received from the
weather bureau agents on the Pacific
coast.

COMMUNICATION FOR 2 MINUTES.
Washington, April 18.—The war
department was in communication
with San Francisco for about two
minutes, this morning shortly after
the earthquake. The San Francisco
operator stated that the disaster was
great; that it was reported that more
than 1,000 had been killed; that the
dead and injured were then being
taken out of the danger zone; that
the water supply had been cut off,
and that there were fears of a general
conflagration. Fires had already
broken out in several places.

NEWS FROM SACRAMENTO.
Sacramento, Cal., April 18.—The
strongest earthquake in 15 years oc-
curred here at 5:15 o'clock this
morning. The vibrations were north-
east to southwest, lasting three min-
utes. They awoke the entire city
and caused a panic in the hotel. No
body was injured.

Several large cracks were made in
the federal building foundation. The
plaster in unfinished buildings fell.

Telegraphic communications with
outside points was broken for three
hours. No direct news has come
from San Francisco.

Great anxiety is felt about inter-
ior points.

FELT IN WASHINGTON.

Washington, April 18.—For nearly
four hours this afternoon Washing-
ton felt the tremble of an earthquake,
the most severe recorded here in
years, if ever before, on the delicate
instruments of the weather bureau.
While it registered as severe on the
seismograph, the rocking was not
perceptible on the streets or in
buildings. Dr. Martin, in charge of
the instrument division, said the
quaking began before 5 o'clock. The
duration led Dr. Martin to conclude
the origin of the earthquake was sev-
eral thousand miles away and far
beyond San Francisco.

RUSSIA MAKES BIG FOREIGN LOAN

St. Petersburg, April 18.—The suc-
cessful negotiation of a foreign loan
of \$100,000,000, rumors as are the
rates which Russia is obliged to pay
for the money, extricates the govern-
ment from much of its embarrassment
and enables it to clear the decks of
the accumulation of debts and furnish
the cash necessary to keep the treas-
ury above water at least for two years.
Irrespective of the attitude of the na-
tional parliament, Premier Witte is
greatly encouraged by the outlook.

TWO MEN STRUCK AND CUT TO PIECES

Chicago, April 18.—Although both
legs were severed at the knee and his
body cut and lacerated, Anthony Hopet,
a railroad detective, crashed 50 feet in
an effort to assist H. E. Kenike, who
was struck by a train and killed.
Hopet was so severely injured that he
did not just as he reached his companion.
The bodies of the two men were found
lying close together about the tracks
of the Panhandle railroad. It is be-
lieved that they were standing close
together when struck by the train.
Kenike's head was completely severed
from his body and Hopet was thrown
a distance of 50 feet.

A life sentence in the pen awaits
George Loestner, 21, one of the three
boy burglars charged with robbing
the house of Herman Jacoby at Cleve-
land, O. The jury found him guilty
and did not recommend mercy.

A serious explosion took place on
board the British battleship Prince of
Wales at Malta. Two men were
killed and several seriously wounded.

CALIFORNIA

Has Proved to be Land of
Many Earthquakes in
Years Past

FRISCO CITY HAD 16 IN 1865

NONE HOWEVER SEVERE TILL THAT
OF THIS MORNING

Shocks Frequently Come Simultane-
ously With Volcanic Eruptions
in Hawaii

Although but 57 years old San Fran-
cisco is the commercial center of the
Pacific coast and ranks high among
the cities of the nation in commercial
importance. It occupies the extremity
of a peninsula covering 12 miles and
is flanked on one side by one of the
finest bays in the world and on the
other by the Pacific ocean. Bristling
batteries at the Golden Gate guard the
bay from invasion by any but peace-
ful merchant ships from the orient,
the Pacific islands, Australasia, Brit-
ish Columbia, South and Central
American ports and the Asiatic pos-
sessions.

The largest ferryboat in the world
carries trains across Carquinez strait.
All the bay ferries converge at the
foot of Market street, which divides
bisects the city. The streets on the
south side of Market street run at
oblique and acute right angles with it.
Those on the north side are run at
right angles with each other but at
angles with Market street. On this
main artery are located the finest busi-
ness blocks and largest hotels in the
city. Among these are the Luning
block, the Grand and Pacific hotels,
the latter the largest caravansary in
the world, the Crocker block and the
Masonic temple.

The United States has a customs
house and postoffice, appraisers build-
ing, treasury building and mint, the
largest in the country. On "Nob" hill,
the most conspicuous elevation, are
famous residences, among them the
Crocker, Stanford, Mark Hopkins and
Flood homes.

The history of California proves it
to be a land of earthquakes. The
first recorded disturbance occurred in
1790. Of all the cities on the Pacific
coast, San Francisco seems espe-
cially ill fated. Fifty-one earth-
quakes visited the city from 1851 to
1865.

Sixty times was the city shaken
in 1865, the first quake occurring on
January 9 and lasting seven hours,
the last occurring November 24 and
continuing three hours and 15 min-
utes.

The most severe shock of that year,
San Francisco's banner earthquake
year, occurred October 8 and lasted
12 hours and 15 minutes. No lives
were lost, though the shocks were the
most violent since the annexation of
the territory. San Francisco, San
Jose, Stockton, Santa Cruz and Sacra-
mento felt them. The disturbance
which visited San Francisco this
morning is exceptional in that many
lives were lost. California earth-
quakes have been more frequent
than fatal.

Thirty years ago several men in
San Francisco were killed by a fall-
ing brick wall during a slight shock.
Outside of this, the total number of
victims of San Francisco earthquakes
since the discovery of gold in 1847
is said to be five.

California earthquakes frequently
occur simultaneously with volcanic
eruptions on the Sandwich Islands,
2,200 miles away. This scientists
term "sympathy."

Though there is no positive data
on the subject the Pacific seaboard has
probably suffered from 200 earth-
quakes since the first was recorded,
in 1790. The older part of the resi-
dence district is built of wood.

GROUND SINKS TEN FEET.

New York, April 18.—Western
Union advises from San Francisco
this afternoon that the ground be-
low Kearney street has sunk about
four feet. In Valencia street the
ground sank nearly ten feet in
places. A similar condition exists in
the Chinese section.

Comb Out? When the hair comes out badly! That is the time you want to know exactly what to do. Here is advice founded on an experience of half a century—Use Ayer's Hair Cream! It feeds the hair-bulbs, gives life and strength to the hair. The hair stays in, grows rapidly, keeps soft and glossy. There is handsome hair in every bottle of Ayer's Hair Cream!

DESSERT JELLY

WATER WORKS INJUNCTION CASE IS POSTPONED TODAY

New Feature In the Case Is the Filing of an Amended Petition by the Attorney General to Sustain the Injunction and Carry Out the Orders of The State Board of Health.

It was understood and expected that the water works injunction case would be heard in Common Pleas court before Judge Seward today, this being the day set for the hearing. But Attorney Stasel, who represents the defendant contractors, the American Light and Water Company, requested that the case be passed for the present. Attorney Roderick Jones for the plaintiff, stated to the court a willingness to agree to postponement on condition that proper notice will be given when the case will be heard.

Attorney J. Howard Jones insisted that if the case be continued a certain time for the trial should be set. In any event, he insisted that the plaintiff's attorneys be given sufficient notice of the time when the defense is ready for trial.

A new feature in this injunction proceeding is the appearance of the Attorney General in the case on behalf of the State Board of Health. This action is in consequence of the violation of the State Health Board's orders by Engineer Davis by which a contract was let and entered into with the American Light and Water Company for the construction of a partial water works system without provision for filtered water.

The Columbus correspondent of Advocate stated some two months ago

LOST HIS HAT WHILE RUNNING

FROM REVOLVER SHOTS FIRED NEAR FIRST AND LOCUST STREETS.

Owner of Headgear Hit Wire Stretched in John Baker's Yard—Can Recover Same.

John Baker, a blacksmith employed at the McNamara shop, has in his possession a good derby hat, the owner of which he would like to find. His story is a strange one.

The hat, which is No. 7 in size, was found in Mr. Baker's yard on North First street. It was found Sunday when Mr. Baker first stepped into his yard. He is certain that the hat wasn't there when he went home Saturday night.

The new owner offers a partial solution to the problem. He states that members of his household heard two revolver shots shortly after midnight Saturday and that it is believed by him that the owner of the hat was the target for the man behind the revolver.

There is a wire in Baker's yard about 5 feet high where a large bull dog is tethered. It is believed that the fugitive endeavored to take a short cut through the yard and hit the wire, lost his hat and in his haste did not make any effort to recover the lost headgear. Mr. Baker states the owner of the hat can recover it by calling and proving property.

BOUND OVER

Is Thomas Shannon on Charge of Shooting at William Wehrle on Friday.

The preliminary hearing of the case against Thomas W. Shannon, who is charged with having fired the shot at Mr. William Wehrle, which came so close to causing his serious injury on last Friday evening, was held Wednesday before Mayor McCleery.

The defendant was represented by Attorney Robbins Hunter and C. W. Montgomery, while the State's part of the case was cared for by Prosecutor Fitzgibbon and Carl Norpell.

After hearing the case, Mayor McCleery bound the defendant over to the Common Pleas court in the sum of \$500. He gave bond.

In connection with the above case, Mr. T. W. Shannon, and N. S. Denman of Denman's Corners, father and uncle of the young man arrested, called at the Advocate's office Wednesday and stated that the report that young Shannon had a very bad reputation around Clay Dick was not true. They also denied that he was a member of any gang that was instrumental in the killing of Homer Loar, or that he had anything whatever to do with the matter.

A dogger built of oak, 65 feet long, 21 feet wide and drawn in 7 feet of water, is now in use in Dundee harbor. It has been in use in the same place for over 100 years and its engine is said to have been built by James Watt.

ABOUT PEOPLE

Walter Traxler has returned from Toledo and Erie, Mich.

Jack Blum of Blackburg, was a Newark visitor on Tuesday.

M. D. Freeman of Chillicothe, was in the city on Tuesday on business.

Charles Justice of Cleveland was in the city on Tuesday on business.

Miss Margaret Plato is visiting in Zanesville, the guest of Miss Juanita Riley.

Mr. and Mrs. Richard Shide returned yesterday from a visit with Cohocton friends.

Mrs. James W. Owens of Columbus is visiting friends in Newark for a few days.

Mrs. A. A. Nevin has returned home after a visit with her daughter at Chillicothe Junction.

William Harris of Steubenville, has secured a position in Newark, and will move his family here.

Mrs. D. C. Murray of Zanesville, is visiting her sister, Mrs. S. M. Holler in this city for a few days.

Mr. Lewis Brooks of near New Albany, is visiting his parents, Mr. and Mrs. Brooks, 27 1-2 North Fourth street.

Mr. Jesse Davis and Miss Maggie Lucas, both of this city, were married Tuesday night by the Rev. L. C. Sparks.

Mr. John Williams of New Philadelphia spent Sunday with his parents, Mr. and Mrs. Evan Williams, of South Fifth street.

Miss Eva Knox of Pittsburgh spent Easter Sunday and Monday at the home of Mrs. P. H. Browne on North Fourth street.

Mrs. Steve of Chicago, and Mrs. Frye of North Fifth street are spending the day at Arnold Norpell's in the Sharon Valley.

Mrs. William A. Berger and son William, left last night for a visit with Mr. Berger's brother and family in Bethlehem, Pa.

Miss Barbara Moore leaves Saturday for New York and from there will sail for Europe to be away nine months or a year.

Mr. J. C. McCarthy and children Florence, Clyde and Anna, returned to Chicago Junction this morning. They were accompanied by Miss Anna Baker and Mrs. Charles Deiburt.

Miss Lillian Mori of Barnesville, who has been visiting friends and relatives here for the past few days, returned home on Wednesday morning. A birthday had a very pleasant visit.

Rev. Thomas Warner, pastor of the First Congregational church, and William H. Richards, superintendent of the Sunday school, are in Chillicothe attending the Central Ohio Conference which is being held there this week.

A cow's hide of average size produces about 25 pounds of leather.

A Reversion to Barbarism.

(Chicago Chronicle.)
Clarence S. Darrow said in a recent speech that even if municipal ownership were reached within a year or two, it would only be the first step toward the restoration of the wealth of the world to the working men who made it. That is, he contemplates the extension of the municipal ownership plan from one thing to another until it ends in state socialism.

It is a great credit to Mr. Darrow that he takes in this perfectly frank manner. He sees us all as asking "What next?" If the municipal ownership of street railways would be only the first step that would be the second? Some will reply: "The telephones, telegraphs and railroads will follow." Yes, that far we can all see, but why stop there? What is the principle on which these three interests would be "taken over," and why would it not apply to many other things and to everything?

Precisely the same state of things exists in connection with fuel, laundries, foundries, carpenter shops and even churches. All these interests are in universal request, require large capital to conduct them, and "have fallen into the hands of parties who oppress the people." We can not see why, if we are consistent, we should not follow Mr. Darrow's advice and "take over" everything in sight and have state socialism at once.

One objection to this program is that it is a reversion to barbarism. The community is a form of society belonging to the infancy of the human race, not its maturity. It existed in the beginnings of every race of men now extant. No race ever accomplished anything until it outgrew this system. Socialism is not progress but atavism. It is a deliberate proposition to humanity to begin life over again. Practical socialism is not only impossible but unthinkable. No one can close his eyes and imagine it in actual operation, and the faster theoretical and partisan socialism increases the less eagerness it displays about putting the scheme into practice.

Rube parade Thursday noon. 17-2

THREE PERSONS COMMIT SUICIDE

Husband Made an Effort to Kill His Wife and Then Took His Own Life.

Louisville, Ky., April 13. — An attempt by a husband to kill his wife followed by his suicide, and successful efforts at self-destruction by two other persons, were the features of Louisville's criminal record. Eltha Thomas, a decorator, shot his wife twice and then turned the weapon on himself, dying instantly. Mrs. Thomas, who before her marriage was the daughter of a well known physician, is paralyzed from the waist down as the result of her wounds, but has a chance for recovery. The wife's jealousy of her husband's attentions to another woman is alleged to have been the cause of the tragedy. While his wife's arms were clasped about him and she was endeavoring to prevent the deed, Fred Diersing, a dairymen, cut his own throat, dying almost instantly. The dead body of L. E. Lindner was found in a vacant house, whether he had gone to commit suicide.

Patagonia Thomas, live for years without tasting water, and a brood of crows near Losere, France, and noted for the richness of the milk, take it very rarely.

Spring Humors

Impure or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite, that tired feeling.

The best medicine to take is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach, liver, kidneys, bowels and skin.

Special. — To meet the wishes of those who prefer medicine in tablet form, we are now putting up Hood's Sarsaparilla in the tablet-coated tablets as well as the usual liquid form. By reducing Hood's Sarsaparilla to a solid extract, we have retained in the tablets the curative properties of every medicinal ingredient except the alcohol, which is destroyed or lost by heat. 100 doses one dollar. C. I. Hood Co., Lowell, Mass.

THE BEST COUGH CURE

Cough syrups are all cheap enough, but if you should get a gallon of cough syrup that does not cure for the price of a small bottle of

Kemp's Balsam

the best cough cure, you would have made a bad bargain—for one small bottle of Kemp's Balsam may stop the worst cough and save a life, whereas the cough "cure" that does not cure is worse than useless, sold by all druggists at 25c and 50c.

CALLED MEETING

Of the Democratic County Central Committee to be held Saturday April 28, 1906.

There will be a meeting of the Democratic County Central committee at the Music Hall on West Main street on Saturday morning, April 28th, at 10:30 o'clock for the purpose of fixing the time for the annual Democratic May Meeting and for the transaction of any other business that may come before the committee.

A PENNILESS PRINTER INHERITS \$10,000

Middletown, O., April 18.—S. E. Coleman, a penniless printer landed in this city from Nashville, Tenn., last Friday and was stayed by a local fellow craftsman. He then learned that his mother had died in Paris his old home, three years ago, leaving him a fortune of over \$10,000.

Coleman went to Fifth Sunday with his brother, who came after him when he learned his whereabouts, after promising to return and repay his benefactor.

Della Kerns has saved the city of New York for damages sustained by falling into an excavation, and which she says destroyed her "delicacy of touch" which was of great value to her in making pies.

MINERS TO MEET IN ZANESVILLE

TO TAKE STEPS TOWARD A SETTLEMENT OF THE STRIKE.

It is Expected That Crooksville District Will Soon Return To Work.

Zanesville, O., April 18.—Tomorrow Thursday morning, at 10 o'clock, the United Mine Workers of the Crooksville district of local sub-district No. 5, will meet in Trades and Labor hall, at Seventh and Main streets, to take the first steps toward a settlement of the present strike. It is thought the operators will meet the miners in a conference on Friday.

Monday the miners of Hooking Valley sub-district No. 1, excepting those employed by the Sunday Creek Coal company, returned to work, the operators granting the 1905 scale, or an advance of 5.5 per cent over the wages received during the past two years. Yesterday the miners, numbering 225, employed by the Wade and Morgan Run mines at Crooksville, returned to work, the same scale being signed here.

It was stated last evening by a prominent officer of the local sub-district that it was expected that the 1905 scale would be signed in this city Friday. In all probability the majority of the 2,500 miners of the Crooksville district will have returned to work by the first of the coming week. The officials of the U. M. W. of A. who will be in attendance at the convention in this city will be D. H. Sullivan of Crooksville, state president; A. C. Smith of Byesville, acting president of the sub-district, and T. M. Davies of Byesville, president-elect.

Simultaneous with the opening of the meeting in this city tomorrow a like convention will be opened in Cambridge, with a settlement effecting the 1,000 miners in Guernsey county in view. State President William Green, Vice President Miller and Secretary-Treasurer Lanning of the sub-district will attend this latter meeting.

Drop by drop the offensive discharge caused by Nasal Catarrh falls from the back of the nose into the throat, setting up an inflammation that is likely to mean Chronic Bronchitis. The certain, rational cure for Catarrh is Ely's Cream Balm and the relief that follows even the first application cannot be told in words. Don't suffer a day longer from the discomfort of Nasal Catarrh. Cream Balm is sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York. mwf-17

SPURNED BY DOWIE.

Vollva's Proposition Not Considered. To Go Into Courts.

Chicago, April 18.—John Alexander Dowie, through his attorneys, E. C. Wetten and P. C. Haley, threw down the gauntlet to General Overseer Vollva and his followers when a proposition advanced by the Vollvites to the effect that the \$21,000,000 estate be turned over to a board of control was rejected by Dowie. According to the provisions of this proposition the board was to consist of nine members, four of them to be selected by Dowie and a like number by Vollva. The ninth man was to be selected by the board as created. It was stipulated that both Dowie and Vollva be active members of this board and that the action of the members thereof be final in determining whether or not the proposed "first apostle" or Vollva be the recognized head of the Christian Catholic church. Dowie rejected the proposal on the grounds that not only would he not acquiesce in the appointment of Vollva on the board, but that he no longer recognized the new leader as a member of the church.

Drowns in Tampa Bay.

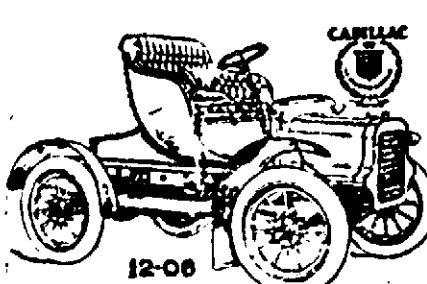

Tampa, Fla., April 18.—George Garry, cashier of the Tampa Electric company, was drowned in Hillsboro, a mile off Ballast Point, while out with a pleasure party of four. The boat was overturned in rough water. Garry started to swim to shore to secure assistance after he and his companion, J. T. Mahoney, rescued the two young ladies with them and placed them on the overturned boat. Being exhausted, Garry went down some distance from his companion and his body has not yet been recovered. Garry recently came to Tampa from Boston and was a member of a prominent family.

King Edward in Athens.

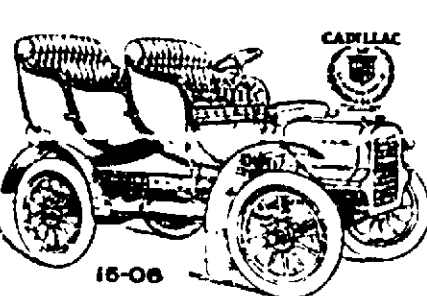

Athens, April 18.—King Edward, Queen Alexandra and the Prince and Princess of Wales arrived here. They were welcomed by King George and Queen Olga of Greece and were given an ovation by the populace.

Dead From Earache.

Louisville, Ky., April 15.—As she was being lifted from bed, preparatory to her removal to an infirmary, Miss Alice E. Bedinger died suddenly. The attending physician stated that the death was due to earache, and that the case has few, if any, parallels in medical history. Miss Bedinger was the daughter of a Presbyterian minister of Lumburg, Va.

RUNABOUT, \$750.

TOURING CAR, \$950.

The Story The Cadillac

Mills the Automobile Man

The season of 1905 demonstrated the unquestioned position of the CADILLAC as AMERICA'S LEADING MOTOR CAR, a position which would have been impossible of attainment excepting as the result of "MERIT," "DEPENDABILITY" and "SATISFACTION."

The popularity of the Cadillac is evident by the fact, that during the past year the Cadillac Company made and sold more automobiles than any other one maker in the world, in fact nearly as many as any other two manufacturers combined.

We have records of many instances in which these cars have been run an entire season without the necessary outlay of a single dollar for repairs or for operating, beyond the cost of gasoline and oil.

The Cadillac single cylinder cars are capable of meeting every reasonable requirement. For the business man, for the physician, or other professional man, for any man who values his time, they will soon save their cost.

They will afford more pleasure and more exhilarating recreation than the amount involved in their purchase would secure if expended for any other purpose.

They can be relied upon for service every day of the year.

They will climb any hill that any automobile will climb.

They will travel any road that any automobile will travel.

They will travel as fast as anybody ought to ride.

The Cadillac is an harmonious unit, a car upon which the public has set its seal of approval.
